This application is in condition for allowance except for the presence of claims 2 and 12-16 directed to inventions non-elected without traverse. Accordingly, claims 2 and 12-16 have been cancelled.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Art Unit: 3725

The prior art of record disclose a coffee grinder with a coffee container comprising the coffee bean container having at least two compartments, a bottom-side output shaft common to the compartments, a grinding mill disposed beneath the output shaft, and the coffee bean container disposed rotatably relative to a non-moving unit formed of a closure element. However, the prior art of record does not disclose or render obvious all of the details of the limitations of the independent claim, and in particular, in view of Applicant's arguments submitted on December 15, 2006.
